Our Product Catalog: FABRICS

Natural Fabrics: Our collection of natural fabrics includes cotton, linen, and silk. These fabrics offer comfort, breathability, and softness, ideal for elegant and comfortable clothing.

Synthetic Fabrics: We offer innovative synthetic fabrics such as polyester, nylon, and microfiber, boasting excellent properties of strength and durability. These fabrics are ideal for sportswear and technical products.

Blended Fabrics: Our blended fabrics combine the best features of natural and synthetic textiles, providing a balance between comfort and performance.

Global Locations

With locations in Como, China, and Egypt, ITG SRL is able to offer efficient and timely service to our customers worldwide. Our production facilities are state-of-the-art and employ modern technologies to ensure the quality of our products.

Egypt: ITG's presence in Egypt dates back to the early 1990s. This allows us to tap into the country's unique textile resources, such as high-quality Egyptian cotton, and expand our network of suppliers and customers in the region.

China: Our presence in China provides us with a strategic location to supply textile materials at competitive prices without compromising quality. The office based in Keqiao (Shaoxing) manages relationships with reliable local partners to ensure efficient and consistently high-quality production all year round.

Italy: Our headquarters in Milan is the beating heart of our operations. Being located in one of the world's most renowned textile regions, we have access to high-quality materials and collaborate with experts in the industry.

Conclusion

With a wide range of high-quality fabrics and a global presence, ITG SRL is the ideal partner for fashion and textile manufacturing companies. We are passionate about our mission to provide the best possible materials, meeting the needs of our customers worldwide. We are ready to face the challenges of the future and become a benchmark in the international textile industry.
